

RECYCLING CUTTER SYSTEM

Recycling Cutters are a safe and efficient cutter, designed for rescue applications, these powerful cutters make quick work of most steel frames, electrical cable, car bodies and any other recycling material.

Code	Capacity (tonnes)	Blade Opening (mm)	Powered	Weight (kg)	1 Day Rate (\$)*	After 4 Days (\$)*	After 8 Days (\$)*
LS1200*	25	125	Electric Pump	11.7	200.00	160.00	120.00

* Includes: Cutter, Pump, and hoses. Various blade options available.

HYDRAULIC END CUTTER

Hydraulic End Cutters are a quick and powerful tool designed for cutting off bolt heads and nuts.

Code	Capacity (Ø mm)	Operating Pressure	Powered	Weight (kg)	1 Day Rate (\$)*	After 4 Days (\$)*	After 8 Days (\$)*
383H*	25	8,700 PSI	Hand	11.7	75.00	60.00	45.00
383E*	25	8,700 PSI	Electric Pump	11.7	95.00	76.00	57.00

* Includes: Cutter, Pump, and hoses.

ANCHOR BOLT TESTERS

Anchor Bolt Testers are the ideal tool for testing structural fastenings, abseiling anchor points, handrail fixtures, safety barrier mounting points, and any other fasteners that are required to hold or withstand a desired load.

Code	Gauges suitable for testing:	Weight (kg)	1 Day Rate (\$)*	After 4 Days (\$)*	After 8 Days (\$)*
HYDRAJAW 2000*	0 - 10 kN & 10 - 25 kN	2.2	80.00	64.00	48.00

* Includes: 2 Gauges and nut attachments, in carry case.

SINGLE STRAND STRESSING SYSTEMS

Single Strand Stressing Systems are a safe and efficient system designed for stressing and pre-stressing of concrete. Various tooling available to suit. With Barrels and Wedges available for sale.

Code	Tonnes	Stroke (mm)	Cylinder Effective Area (cm ²)	Suitable Strand	Weight (kg)	1 Day Rate (\$)*	After 4 Days (\$)*	After 8 Days (\$)*
IHS256*	25	150	33.25	0.5 & 0.6	25.0	170.00	136.00	102.00

* Set includes: Stressing Cylinder, electric pump (SMP-4C), calibrated gauge, hoses, and internal wedge set.

Hollow Cylinders also available.
